

Mate AI

Platform for Authorized Representatives
under the EU AI Act

Support for authorized representatives in managing AI systems.

PROBLEM

- Organizations are adopting AI rapidly, but governance is lagging behind.
- Lack of visibility, ownership, and control increases regulatory and operational risk.

SOLUTION

- Mate AI assists authorized representatives in managing AI systems, fulfilling obligations, and maintaining continuous oversight – all within one structured platform.
- Everything is centralized: systems, responsibilities, tasks, and incidents.

Key functionalities

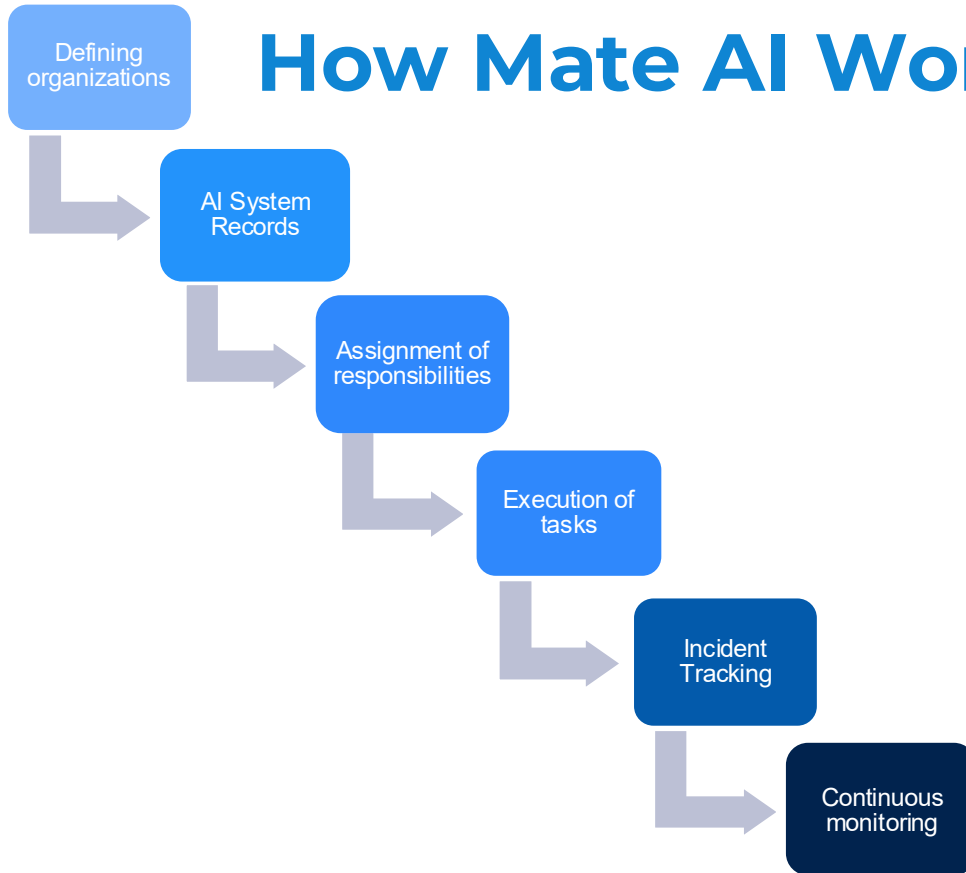

A range of functionalities that make your business easier

Central Dashboard	View your AI systems, Tasks, Incidents, Companies, and Other.
Companies	A view of all the companies you represent with information about them.
AI System Monitoring	A register of Ai systems with details relevant to the authorised representative.
Regulatory obligations	An assortment of graphic resources that are suitable for use in this presentation.
Risk overview and incident monitoring	Previewed and managed potential risks and incidents.
Documentation and reporting	Preparation of documents in pdf and excel and reports for the needs of regulators.
Team Management	Add and manage your team members.
Regulatory Requirements and Notices	Monitoring of all regulatory procedures, requests and notifications of any changes.

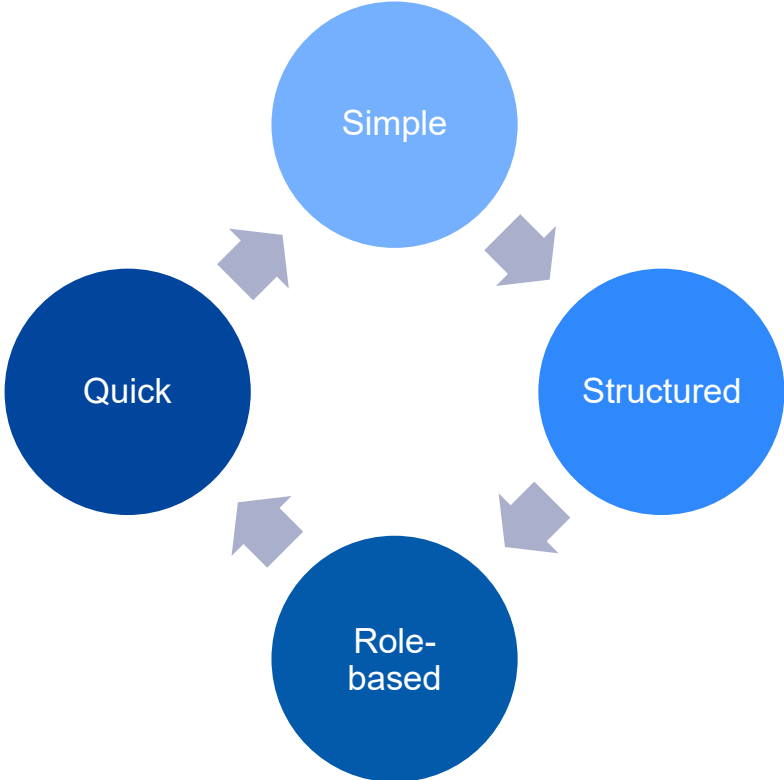

How Mate AI Works

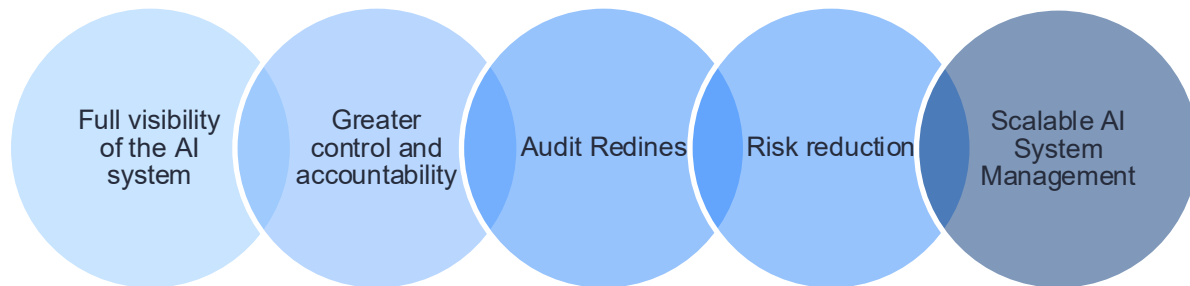

User Experience

Business value
